Practical VIII

Roll No.:T025	Name:Afsha Amjad Mujawar
Class:TYIT	Batch:01
Date of Assignment:22-08-2026	Date/Time of Submission:22-08-2026

Practical 1 A Create a Jira Cloud account and explore the dashboard:

Step 1: Open Google and search for Jira. Open the Jira website to begin the setup.

Step 2:Click on Google. Enter the required email/account details and click Continue to create or access your Jira account.

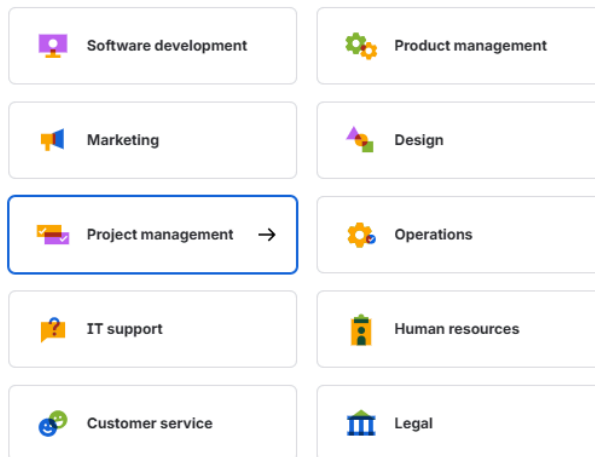

Step 3:Complete the account creation process by following the instructions displayed on the screen.

Step 4:Wait for Jira to complete the initial setup. The Getting things ready screen will appear.

Step 5:Select the type of work you want to manage. For this practical, select Project management.

What kind of work do you do?

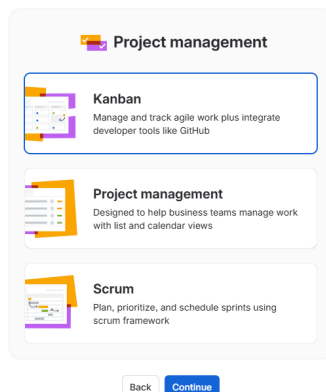

This helps us suggest templates that help your team do their best work.

Step 6:From the available project-management templates, select the required template that is Kanban and click Next.

Select a template to get started

You can always change this later. Selecting a template won't limit what you can do.

Step 7: Enter a suitable name for your space/project in the Name your space field.

Name your space

This is where you'll help your team track progress, stay organized, and manage tasks.

Name your space

My Project Management Team

Example space names:

My Project Management Team

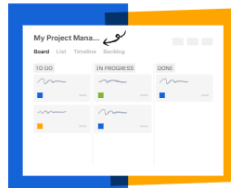

Team Lyra

Milestone Hub

Initiative Planning

Cross-Team Projects

Get started

Step 8: Select the appropriate method for tracking your work and click Next.

How do you track work?

As you complete work, it moves through these statuses.

Don't worry, you can change these later.

Next

Step 9: After this select the type of work – click next.,Click on Go to Jira.

Jira's better when used together

Jira works better with your team onboard. Invite a teammate to try it out with you.

Do this later

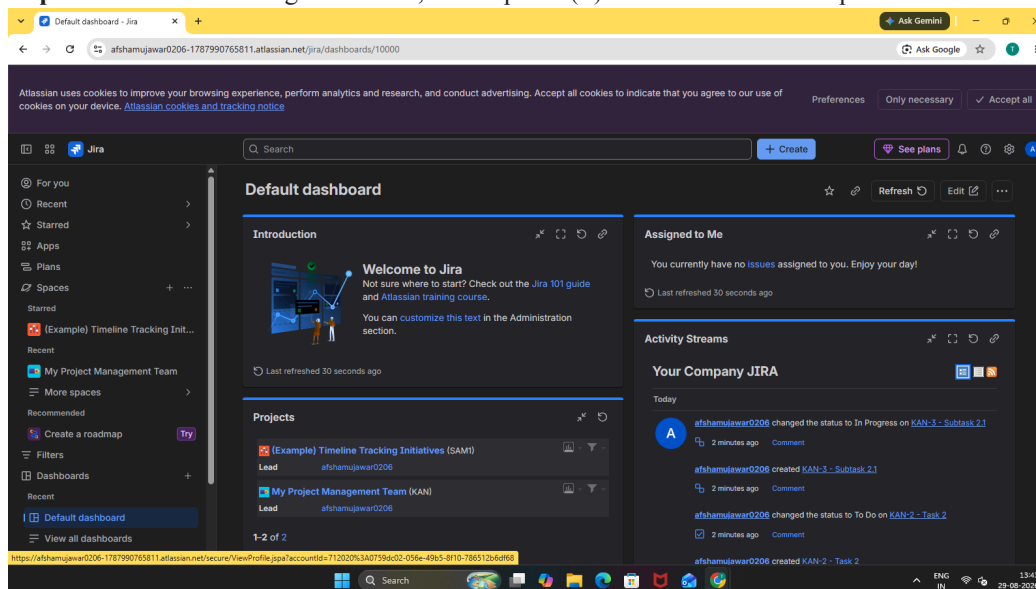

Go to Jira

Step 9:After completing the setup, the Jira Dashboard will appear. The dashboard provides access to your projects and work.

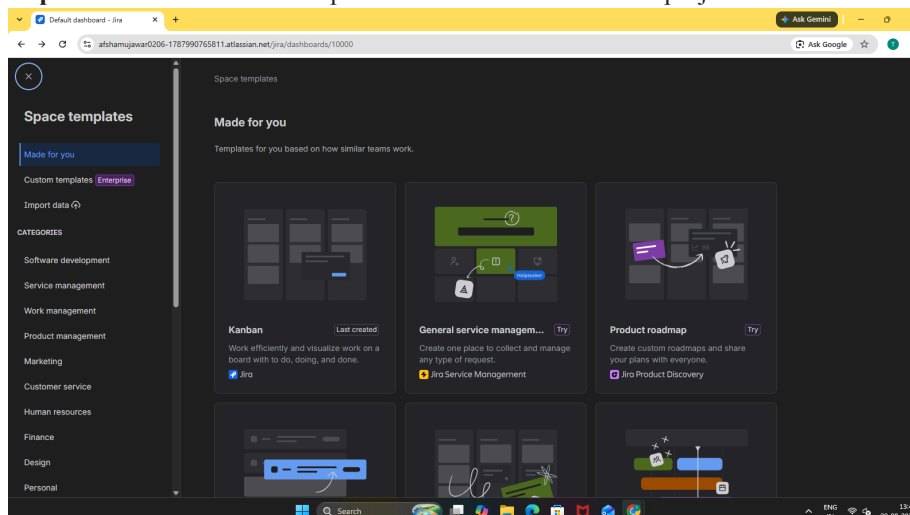

Practical 1B - Create a Company-managed Scrum/Kanban Project.

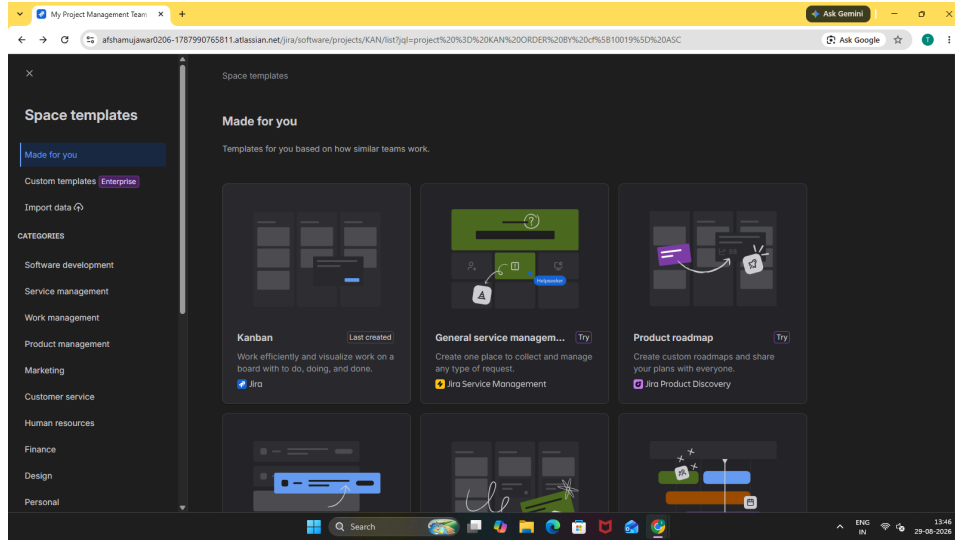

Step 1: From the Jira navigation menu, click Spaces (+) to create or access a space.

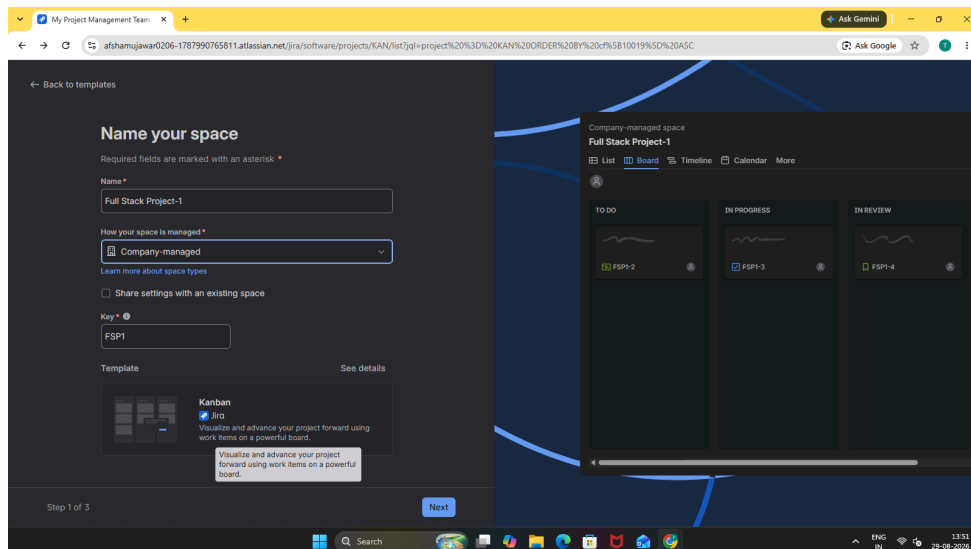

Step 2: Select the Kanban template to create a Kanban-based project.

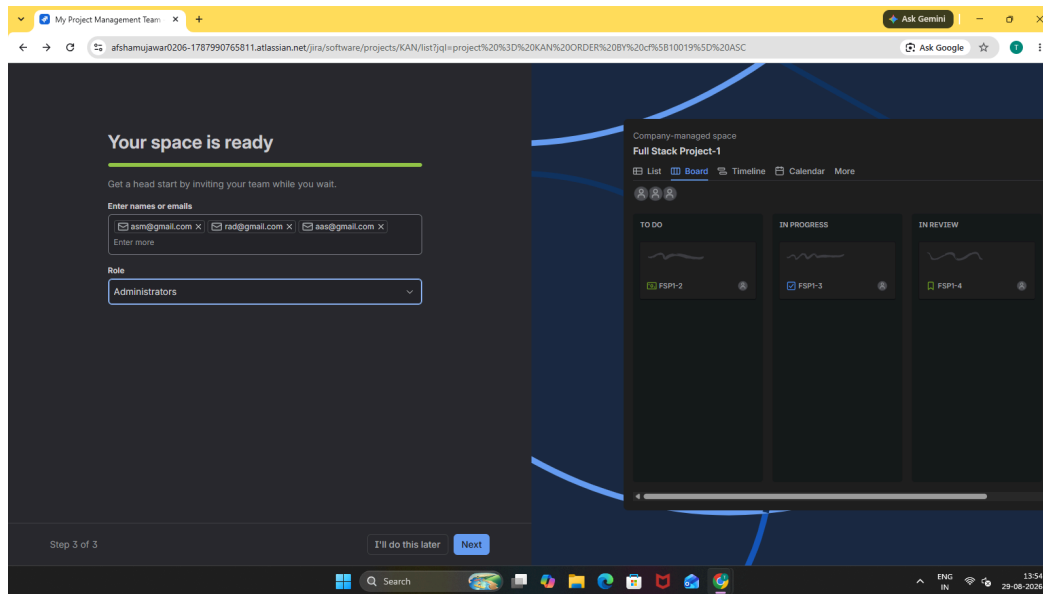

Step 3: Select Kanban and click on use template

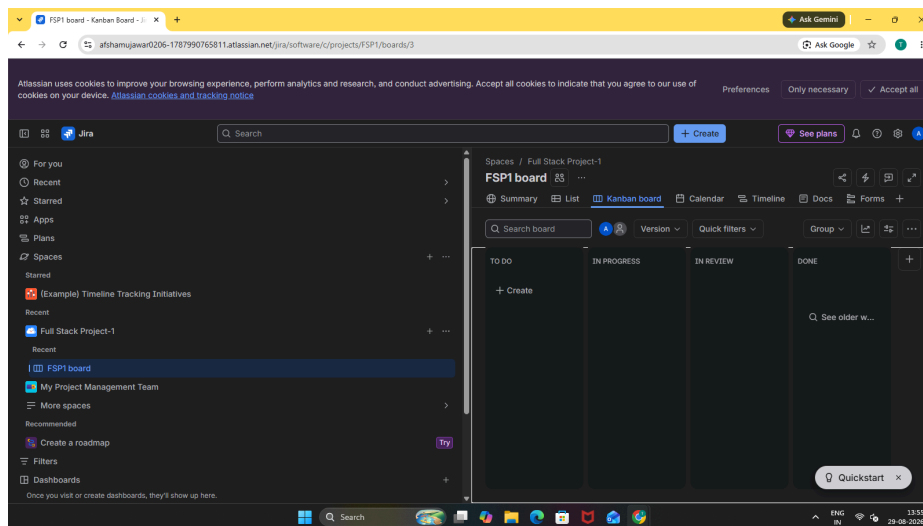

Step 4: Enter the required Space Name and provide the necessary details such as, select Company-managed in space managed option and then click next

Step 5: Enter the email addresses of the team members you want to add to the space.If you do not want to add members at this stage, select I'll do this later.

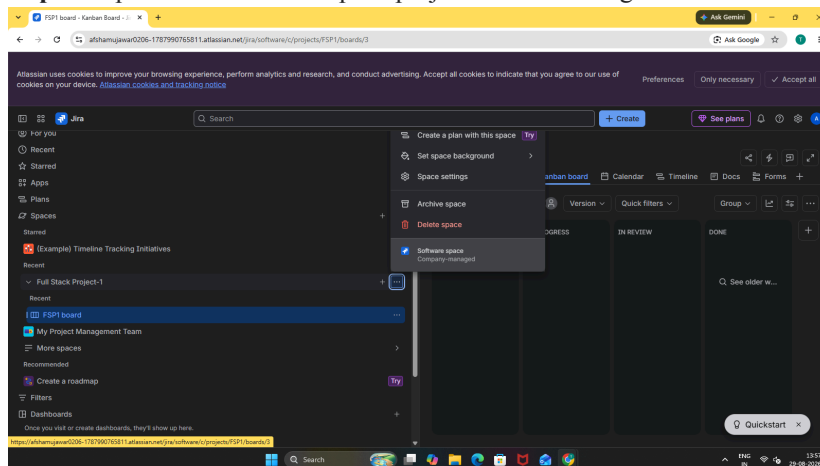

Step 6: After completing the setup, the Kanban Board will appear. The board can be used to create and track tasks through different stages.

Practical 1C - Configure project details:

Step 1 : Open the created Jira space/project from the navigation menu.

Step 2: Click Space settings to access and manage the configuration options of the Jira space.
