M2:Practical – IV

Roll No.: T025	Name: Afsha Amjad Mujawar
Class: TYIT	Batch: 1
Date of Assignment: 09/09/2026	Date/Time of Submission: 09/09/2026

5A . Design a Custom Workflow

Open Jira → Open your Project/Space.

Go to Space Settings → Workflows.

Click Add Workflow → Add Existing Workflow.

Select Classic Default Workflow → Click Next.

Select the required Issue Types → Click Finish.

Find your workflow → Click Diagram.

5B. Add Transitions and Conditions

Open Space Settings → Workflows.

Select your workflow → Click Edit Workflow.

Click Add Transition.

Create transition

Transitions connect statuses. They represent actions people take to move work items through your workflow. They also appear as drop zones when people move cards across your project's board.

To reuse a transition, edit the transition and select additional from statuses.

Required fields are marked with an asterisk *

From statuses * → To status *

Select from status → Select to status

Name *

Give your transition a name

Tip: Name your transition as an action people take to move an issue, like "start work" or "merge".

Cancel Create

Select From: To Do → To: In Progress.

Enter transition name: Start Work.

Click Create.

Create transition
